## PALLETS

### GRATES for Workstations & Pallets

There's no need to worry about incidental spills on your factory floor. ENPAC's Workstations are the easiest to load with low profile design and optional ramp. One- piece construction optimizes space for increased durability, safety and efficiency.

With ample sump capacity in each Workstation, this secondary containment product is perfect for a dispensing station or work. Each Workstation is designed for stand alone use or combines with other Workstations for a customized work area.

Our rolled-edge design helps resist cracking and warpage.

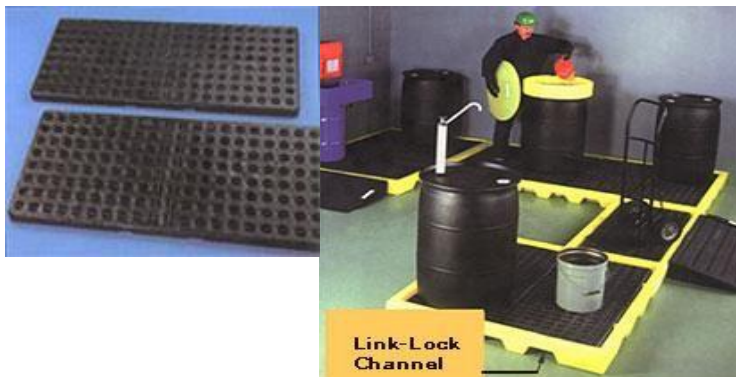

- Tough polyethylene construction, cannot rust or corrode
- Low-profile Workstations actually become part of your factory floor, optimizing space for increased safety and efficiency. Make drum loading a snap.

### GRATES

New grates are available for when contamination occurs or for replacement. Contact us for details.

**Products shown include 2, 4, 6 & 8 Drum workstations and two Multi-Purpose Work Ramps with three sets of Link-Locks.**

- ☐ Large sump capacity catches incidental spills
- ☐ Multi-Purpose Work Ramp hooks onto any Workstation for easy loading
- ☐ Heavy-duty removable structural foam grates for easy cleaning
