DISPENSING

POLY-DOLLY® ATD

- The common dolly has been rattling around industrial plants for 200 years virtually unchanged in design and function. It has been a good tool, but not efficient enough. Poly-Dolly, the multi-functional, two-wheel dispensing station, takes the dolly out of the Industrial Revolution and into the 21st Century.
- With Poly-Dolly, mobile dispensing is no longer a cumbersome, risky business. It transports 55-gallon drums with ease, tilts to become an efficient self-dispensing station, and acts as its own secondary containment unit. By reducing unnecessary and dangerous drum handling, Poly-Dolly protects workers, improves efficiency, and helps improve profits.
- Made of long-lasting, tough polyethylene, Poly-Dolly is strong enough to withstand daily bumps and scuffs and will not rust or corrode. That is why companies are saying: "Goodbye dolly. Hello Poly-Dolly."

POLY-DOLLY® CONVERSION KIT

Sold separately, the Conversion Kit comes complete with pneumatic rubber wheels and washers. Everything you need to convert the Poly-Dolly into an ATD in just a few simple steps.

UNIVERSAL® WELL LINER

The Universal Well Liner provides extra spill protection. To reclaim spilled material, just lift up the liner...no cleaning, wiping or scrubbing.

POLY-DOLLY® ATD

Need an even more rugged dolly for outdoor terrain? Poly-Dolly is available as an AllTerrain Dolly or can be converted into one with our Poly-Dolly Conversion Kit.

POLY-DOLLY® COVER

Protect your Poly-Dolly from outdoor elements with this durable vinyl cover that fits snugly over the top.

HANDLING IS A CINCH!

A U-shaped barrel platform and double looped strap make for easy loading.

The lightweight design, kick plate and rolled-grip handles make for easy tipping.

Large 10" wheels and ergonomic design make transport trouble free.
